Introduction

Twenty years ago the Cuyahoga Special Education Regional Resource Center along with the NE Ohio Parent Mentors, the Ohio Coalition for the Education of Children with Disabilities, and the Arc of Greater Cleveland came together to offer families in the greater Cleveland area an opportunity to share resources, contacts and their passion for independence, self-determination and community inclusion for students and young adults with diverse needs. The purpose of their collaboration was to ensure that students have access to opportunities that expands their academic and social-emotional needs. Today the State Support Team of Region 3, along with Educational Service Center of Cuyahoga, continue to work with school districts, community partners and families to offer professional development focused on Universal Design for Learning, Positive Behavior and Interventions and Supports, and Evidenced Based Early Literacy and Post-Secondary Transition supports. Thank you to the Greater Cuyahoga area for your continued support!

Summer is just around the corner and parents are beginning to think about what activities will be available to offer their children for the summer as well as throughout the year. This familiar task is often a little more challenging for families of children with disabilities. In fact, individuals with disabilities may benefit from recreational opportunities throughout the year.

The State Support Team Region 3 (SST3) offers the 2018 Summer and Beyond Directory as a resource to parents, family members and school district personnel about extended opportunities around the Cuyahoga County area. Please visit our website www.esc-cc.org throughout the summer for updates to our directory.

The information in this directory is meant to be used as a reference and should not be considered comprehensive or an endorsement of any program or product. We do not make recommendations concerning the quality of these programs and strongly encourage readers to call the contact persons listed for clarification and explanation of their programs.

You may also contact your local community recreation departments, schools, county library branches, YMCA, YWCA, Scouts of America, and local cultural arts and entertainment centers for additional programs or activities.

Keep this book handy for NEXT YEAR'S planning!

EXCEPTIONALITIES DEFINITIONS AND CODES

Included in each program descriptor there is a Population Served Code. The following will assist you in defining what special needs population is being served. These definitions have been taken directly from Ohio Department of Education's 2014 Operating Standards for Ohio's Educational Agencies Serving Children with Disabilities

EXCEPTIONALITY DEFINITIONS AND CODES

AUT	AUTISM – means a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age 3, which adversely affects a child's educational performance.
ED	EMOTIONAL DISTURBANCE – means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance. <ul style="list-style-type: none"> • An inability to learn that cannot be explained by intellectual, sensory, or health factors; • An inability to build or maintain satisfactory interpersonal relationships with peers and teachers; • Inappropriate types of behavior or feelings under normal circumstances; • A general pervasive mood of unhappiness or depression; and • A tendency to develop physical symptoms or fears associated with personal or school problems. The term includes schizophrenia. It does not apply to children who are socially maladjusted, unless it is determined that they have an emotional disturbance.
HI	HEARING IMPAIRMENT – means an impairment in hearing, whether permanent or fluctuating, that adversely affects a child's educational performance but that is not included under the definition of deafness. Deafness - means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, and that adversely affects a child's educational performance.
ID	INTELLECTUAL DISABILITY - means significantly sub average general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period that adversely affects a child's educational performance.
OI	ORTHOPEDIC IMPAIRMENT – means a severe orthopedic impairment that adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g. cerebral palsy, amputations, and fractures or burns that cause contractures).
OHI	OTHER HEALTH IMPAIRMENT – means having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment, that is due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, and sickle cell anemia, and adversely affects a child's educational performance.
SLD	SPECIFIC LEARNING DISABILITY – means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; of mental retardation; of emotional disturbance; or of environmental, cultural, or economic disadvantage.
S/LI	SPEECH OR LANGUAGE IMPAIRMENT – means a communication disorder, such as stuttering, impaired articulation, language impairment, or voice impairment that adversely affects a child's educational performance.

EXCEPTIONALITY DEFINITIONS AND CODES

TBI	<p>TRAUMATIC BRAIN INJURY – means an acquired injury to the brain caused by an external physical force, or by other medical conditions, including but not limited to stroke, anoxia, infectious disease, aneurysm, brain tumors and neurological insults resulting from medical or surgical treatments. The injury results in total or partial functional disability or psychosocial impairment or both, that adversely affects a child’s educational performance. The term applies to open or closed head injuries, as well as to other medical conditions that result in acquired brain injuries. The injuries result in impairments in one or more areas such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. The term does not apply to brain injuries that are congenital or degenerative, or to brain injuries induced by birth trauma.</p>
VI	<p>VISUAL IMPAIRMENT INCLUDING BLINDNESS – means an impairment in vision, that even with correction, adversely affects a child’s educational performance. The term includes both partial sight and blindness.</p>
<p>TWICE-EXCEPTIONAL DEFINITION AND CODE</p>	
GT	<p>GIFTED- means students identified as having a disability (listed above except ID) that has also been identified as meeting the minimum threshold on all three parts of indicators: performance, progress and input.</p>

Address: 1551 E. Wallings Road Broadview Heights, OH 44147

Phone: 440-526-0717

Email: dhamilton@lawrenceschool.org

Website: www.lawrenceschool.org

Descriptor: The Lions Leap program helps students entering grades 1 through 6 – and those repeating Kindergarten – experience academic success, learn valuable organizational skills, and learn new strategies that can be carried into the new school year!

Academically, students will reinforce and enrich academic skills in the areas of language arts, reading, written expression and mathematics. Organizational skills and strategies are also embedded in the learning process. Classes are structured and non-graded, with an average teacher-to-student ratio of 1:8.

Socially, students are empowered to broaden friendships, increase self-esteem, and see learning as fun. Through positive reinforcement and a structured, comfortable environment, students experience academic success – some for the first time. Furthermore, the curriculum is aligned to support requirements under the Third Grade Reading Guarantee. Students do not need to be enrolled in Lawrence School during the school year to take advantage of the program.

Phone: 216-929-0026

Email: handerson@friendshipinteam.com

Website: www.friendshipinteam.com

Descriptor: The FIT program is a social skills program that offers all children a chance to make friends in a fun, movement-based environment. At FIT, children learn valuable social thinking, conversation, and self-regulation skills: the tools for connecting with peers and forming friendships. We believe strongly that children learn by doing, which is why we present lessons in a short, direct format and then jump into cooperative games and gross motor activities for practice we also know the value of slowing things down to really focus on a particular social skill and giving children feedback about their performance. That's where the "halftime discussions" come into play. We include typical children in all of our activities because we know children learn best from their peers. The FIT programs are providers for Autism Scholarship and Jon Peterson Scholarship. We also accept family resource dollars. Check out our video on our YouTube channel at *FIT: Friendship in Teams*.

Descriptor: The Discovery and Wellness Center for Children is a pediatric research center housed within the Division of Children and Adolescent Psychiatry at University Hospitals Cleveland Medical Center. We are currently offering several research based treatment programs for children and adolescents who suffer from problems such as anxiety, schizophrenia, bipolar disorder, ADHD, autism and depression. All of these programs are provided at no cost to the family. Eligibility varies for each program. We conduct a thorough intake process which will determine program eligibility. If eligible, the treatment program may include a psychiatric evaluation, laboratory tests, and study medication. The family may be seen weekly or monthly depending on program protocol timelines and swiftness of response to treatment. A member of our clinical research team along with a child psychiatrist will see the family on every treatment visit.
